

6516209582.txt

I pay dearly for the signal of X MI am a cross country trucker and when I am heading toward a City that has traffic and weather I go there quite often to study the condititions

The local traffic and weather is JUST THAT local and you also must know the location on the radio

My XM gives the local condititions 24/7 so I can listen at my leasure

Please consider rejucting NAB,s petition 04-150

Thank You  
Chuck Rodman
